Volume 11

Table of Contents

Articles

Methodology Review: Principles, Procedures, and Findings in the Application of Background Data Measures
Michael D. Mumford and William A. Owens 1

A Procedure for Standardizing Individually Administered Tests, Normed by Age or Grade Level
William H. Angoff and Gary J. Robertson 33

A Monte Carlo Investigation of Several Person and Item Fit Statistics for Item Response Models
H. Jane Rogers and John A. Hattie 47

Detecting Inappropriate Test Scores with Optimal and Practical Appropriateness Indices
Fritz Drasgow, Michael V. Levine, and Mary E. McLaughlin 59

Exploiting Auxiliary Information About Examinees in the Estimation of Item Parameters
Robert J. Mislevy 81

Statistical Inference for Coefficient Alpha
Leonard S. Feldt, David J. Woodruff, and Fathi A. Salih 93

Methodology Review: Item Parameter Estimation Under the One-, Two-, and Three-Parameter Logistic Models
Frank B. Baker 111

How Well Do the Angoff Design V Linear Equating Methods Compare With the Tucker and Levine Methods?
Ronald T. Cope 143

An Application of the Three-Parameter IRT Model to Vertical Equating
Deborah J. Harris and H. D. Hoover 151

Lord's Chi-Square Test of Item Bias With Estimated and With Known Person Parameters
Mary E. McLaughlin and Fritz Drasgow 161

Component Latent Trait Models for Paragraph Comprehension Tests
Susan E. Embretson and C. Douglas Wetzel 175

Cross-Validation of the WISC-R Factorial Structure Using Three-Mode Principal Components Analysis and Perfect Congruence Analysis
Pieter M. Kroonenberg and Jos M. F. ten Berge 195

The Correction for Restriction of Range and Nonlinear Regressions: An Analytic Study
Alan L. Gross and Lynn E. Fleischman 211

Special Series
Problems, Perspectives, and
Practical Issues in Equating

Introduction to Problems, Perspectives, and Practical Issues in Equating
Robert L. Brennan 221

Problems Related to the Use of Conventional and Item Response Theory Equating Methods in Less Than Optimal Circumstances
Linda L. Cook and Nancy S. Petersen 225

The Use of Presmoothing and Postsmoothing to Increase the Precision of Equipercentile Equating
Benjamin A. Fairbank, Jr. 245

Linear Equating Models for the Common-Item Nonequivalent-Populations Design
Michael J. Kolen and Robert L. Brennan 263

Some Practical Issues in Equating
Robert L. Brennan and Michael J. Kolen 279

Technical and Practical Issues in Equating: A Discussion of Four Papers
William H. Angoff 291

A Reply to Angoff
Robert L. Brennan and Michael J. Kolen 301

Use of the Log Odds Ratio to Assess the Reliability of Dichotomous Questionnaire Data
D. A. Sprott and M. D. Vogel-Sprott 307

Maximum Likelihood Estimation of Multiple Correlations and Canonical Correlations with Categorical Data
Sik-Yum Lee and Wai-Yin Poon 317

Methodology Review: Clustering Methods
Glenn W. Milligan and Martha C. Cooper 329

A Generalized Logistic Item Response Model Parameterizing Test Score Inappropriateness
Nancy L. Strandmark and Robert L. Linn 355

Effects of Variations in Item Step Values on Item and Test Information in the Partial Credit Model
Barbara G. Dodd and William R. Koch 371

Open-Ended Versus Multiple-Choice Response Formats—It Does Make a Difference for Diagnostic Purposes
Menucha Birenbaum and Kikumi K. Tatsuoka 385

A Stochastic Three-Way Unfolding Model for Asymmetric Binary Data
Wayne S. DeSarbo, Donald R. Lehmann, Morris B. Holbrook, William J. Havlena, and Sunil Gupta 397

Power and Robustness in Product-Moment Correlation
Robert L. Fowler 419

Book Reviews

Statistical Methods for Meta-Analysis by Larry V. Hedges and Ingram Olkin
William Stock, Reviewer 104

Measuring Social Attitudes: A Handbook for Researchers and Practitioners by Daniel J. Mueller
Thomas M. Ostrom, Reviewer 107

Test Design: Developments in Psychology and Psychometrics by Susan E. Embretson (Ed.)
Erling B. Andersen, Reviewer 219

Applied Multivariate Statistics for the Social Sciences by James Stevens
Robert A. Pfeiffer and Robert M. Pruzek, Reviewers 325

Multidimensional Scaling: History, Theory, and Applications by Forrest W. Young and Robert M. Hamer (Eds.)
Stephan Lewandowsky and John C. Dunn, Reviewers 429

Computer Program Exchange

PARALLEL: A Program for Performing Parallel Analysis
Ron D. Hays 58

TRIAGE: A SAS Program of Dissimilarity Data Diagnostics
Tony D. Thompson and Joseph Lee Rodgers 160

JOHN-NEY: An Interactive Program for Computing the Johnson-Neyman Confidence Region for Non-significant Prediction Differences
Gary J. Lautenschlager 174

SHRINKR: A Program for Computing Estimates of R^2 in the Population and Formula Cross-Validation R^2
Gary J. Lautenschlager 433

James Lumsden 1920–1986 109

Volume 11 Author and Subject Index 435

Copyright and Permission:

No part of this publication may be reproduced in any form or by any means without the prior written permission of the publisher. The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made by libraries beyond that permitted by Sections 107 and 108 of the U.S. Copyright Law, provided that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc., 21 Congress St., Salem MA 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, all of which require written permission of the publisher. Reprinting requests for Volumes 1 through 4 should be addressed to West Publishing Co., 50 W. Kellogg Boulevard, P.O. Box 3526, St. Paul MN 55165. Reprinting requests for Volume 5 and subsequent volumes should be addressed to *Applied Psychological Measurement*, N658 Elliott Hall, University of Minnesota, 75 E. River Road, Minneapolis MN 55455-0344, U.S.A.; phone 612-625-0342.

Subscription Information

Subscription Rates (Four issues per volume, quarterly): Libraries and Institutions—in U.S., $50.00; elsewhere, $60.00. Individuals—in U.S., $25.00; elsewhere, $30.00. Special Student rate—in U.S., $12.50; elsewhere, $15.00. Individual and Student subscriptions must be accompanied by a personal check or money order; Student subscriptions must also be accompanied by a letter from a faculty member certifying student status.

Subscription Service: Shipments will be made only upon receipt of remittance. All orders for current subscriptions or purchase of back issues, remittances, and communications related to handling subscriptions, including notifications of change of address, should be sent to the Publisher. Change of address notices should provide the old as well as the new address, including zip code number. Changes will become effective within approximately 30 days. Missing copies will be replaced only if valid claims are received within 90 days from date of mailing. Replacements will not be allowed if the subscriber fails to notify the Publisher of a change of address or if a copy is misplaced at destination. Request for refund will be honored only prior to delivery of issue number 1 of each volume. Address all subscription correspondence to *Applied Psychological Measurement*, N658 Elliott Hall, University of Minnesota, 75 E. River Road, Minneapolis MN 55455-0344, U.S.A.; phone 612-625-0342.
